

ENVIRONMENTAL POLICY STATEMENT

TWLLH Group is aware of the need to minimise the impact of our operations on the environment and has implemented a systematic management approach to controlling waste and minimising pollution of the environment.

Purpose

To address our impacts on the environment through a systematic set of objectives.

Scope

This policy covers the activities, products and services carried out by all TWLLH staff and management, including sub-contractors.

Policy Statement

We will:

- Comply with all relevant Acts and Regulations to ensure that the workplace is safe of risks to health or the environment;
- Minimise waste through recycling excess materials where possible;
- Dispose, control or treat waste product in a method to prevent pollution;
- Actively worker as a collective towards minimising our environmental impact on installation sites;
- Consider environmental factors when designing, fabricating, and supplying our FRP products;
- Ensure that the environmental policy is effectively implemented; and
- Hold all employees accountable for their specific responsibilities to adhere to this policy.
